Spiritually, Physically, Socially, Emotionally and Financially!!!.....	2
1. Start with prayer:	3
2. Dream up your wish list:	4
3. Acquire skills for your Dream:.....	5
4. Keep in the company of those who have reached there:.....	6
5. Thank Waheguru for every success in that direction:	7
6. Teach others your methods and you will have a powerful Support System:	8
7. My Prayers with you, now and for Eternity:	8

Thank and Grow Rich in Every way!

1. Start with prayer:

Whatever we get in life, is coming from our Almighty Creator. Let us see, such a big complex universe with billions of stars, zillions of possibilities is humming around so miraculously, universe cannot be an autopilot machine. It has to be thru that Almighty Creator.

Let us start with a prayer, “Oh Lord, grant us all the good things we need and then above all your Gratitude. Lord, we do not even know what is good for us. You kindly, bless us with everything great for life and for eternity!”

Folks, if you have done above prayer, you are mid-way to your much-alluded success! Well begin is half-done!

Thank and Grow Rich in Every way!

2. Dream up your wish list:

It is such a fabulous brain Waheguru has blessed us with. Start with your imagery, whatever you want. Half of the problem is that we have not even written down our goals and dreams. Make a list of items you expect of life. Kindly, make Love of Lord as item number one! Believe me, from the experience of millions, that is most rewarding achievement for now and for eternity! You will be enriched beyond your expectations. I have been, so you will be too!

Thank and Grow Rich in Every way!

3. Acquire skills for your Dream:

To do anything useful, we need great skills.

Skills are so precious. Rather than depending on others, try to do yourself.

The difference between a lowest-paid and highest-paid person, is only the skill.

Build your marketable skills. Make a list of skills that are useful in entire life:

1. Human Management Skills
2. Communication Skills
3. Financial Management Skills
4. Marketable Skills
 - a. Any field you work in, you will need this extremely useful skill. Learn the ropes of this skill at the earliest.
5. Legal Skills
 - a. Society has many rules. More rules you know, easier your path becomes. Acquire some basic skills.
6. Life Sustaining Skills
 - a. Income Tax Laws
 - b. Insurance Laws
 - c. Health and Safety Methods
7. Virtues to learn
 - I. Doing Keertan: Learn Harmonium or Tabla
 - II. Self-Defense
 - III. Cooking and hospitality
 - IV. Herbal Medicine
 - V. How to respect elders
 - VI. Reading and understanding Gurbani
 - VII. Entertaining and playing with children

Thank and Grow Rich in Every way!

4. Keep in the company of those who have reached there:

We humans learn by imitating others. This entire growth of society, building flying machines (Airplanes) to thinking machines (Computers) has been possible with humans learning from the experience of others. They built on the knowledge of previous people.

Honestly, we get struck on small items. We always need the encouragement, support of other enlightened souls. Their mere presence adds to skills and achievements. World is open, people have skills and wisdom to dispense, yet they do not find right followers: the followers with gratitude! All for free, all for merely requesting! Go clean the web of your own thinking. Do not just stay in front of the tube. Action success, love, growth life is where His beloved children get together and do great service to each other!

So to become a Saint, go to the company of Saints. And to become a great businessman go attend business colleges and seminars.

Thank and Grow Rich in Every way!

5. Thank Waheguru for every success in that direction:

The most important achievement of life is to get Salvation. We have been born hundreds of thousands times, as Shri Guru Granth Sahib teaches us. Yet Salvation has been not our cup of tea. Either we did not get Righteous Guru or we have been poor followers. Either reason, we are facing infinite number of deaths and births! Folks, it makes me to cry, to relay this: that death is not an easy event! Look around and see how people are losing their near and dear ones, how the families come to stand still for years and many times decades, at times deaths causing tear-sheds for life, go ask parents who have lost their beloved children.

There is some way to break out of this infinite loop of death and life. God's all scriptures are dedicated toward that. The day you will start reading and researching Scriptures, you will become a Creator, just like I you will be preaching and practicing rather than watching TVs and following fake lessons of others!

Nothing like your own personal experience. The God's Word, not only available rather resource places provide free lessons, foods and Langars! Just open your life and souls to such sources and all the treasures of this universe will be in your chest pocket!

To be in synch with Almighty Waheguru is the ultimate success of life. By being thankful to Him, we are drawn towards purity and bliss.

Get in the great habit of:

- Reading Sacred Text every morning and every night.
- Visit the Gurdwara Sahib, at least every other day. Yet one is advised to visit twice a day!
- Develop a small discussions group: to exchange ideas
- Keep in touch with community in digital world.

Thank and Grow Rich in Every way!

6. Teach others your methods and you will have a powerful Support System:

We humans are social, we depend and grow on the strength of our peers. The best way to assure presence of other supporting people, is to develop a team around yourself. Build an entire group that you serve and get strength from. It will build the entire team.

7. My Prayers with you, now and for Eternity:

What I am going to share with you, is going to astonish you. Rather than saying customary "Thank You!", start into habit of saying "Bless You!" and you will become a Saint! Guranteed, rather than 100%, you will be a Saint 105%. That gurantee is not mine, rather our Creator's! Go try and report back.

Blessings! Blessings!! Blessings!!!
